

VEILLE SCIENTIFIQUE DU CRI-VIFF SUR LA VIOLENCE CONJUGALE

Le septième numéro de la veille scientifique mensuelle du CRI-VIFF

Le Centre de recherche interdisciplinaire sur la violence familiale et la violence faite aux femmes (CRI-VIFF) publie une veille scientifique sur une base mensuelle afin de fournir aux principaux acteurs-rices (chercheurs-es, intervenants-es, étudiants-es, décideurs-es politiques) impliqués dans la lutte contre la violence conjugale, l'accès aux plus récentes connaissances théoriques, méthodologiques et pratiques qui les accompagneront dans leurs réflexions et dans leurs pratiques.

Cette veille scientifique réunit les publications du dernier mois sur les différentes dimensions de la violence conjugale. Ces publications sont de nature multiple : écrits scientifiques, littérature grise, articles de journaux, rapports ou fiches synthèses du CRI-VIFF et autres événements pertinents.

Nous soulignons que ce projet a été rendu possible grâce au soutien financier du **Secrétariat à la Condition féminine du Québec**.

Nous soulignons également la collaboration de madame Magali Lachapelle, diplômée de l'École de bibliothéconomie et des sciences de l'information de l'Université de Montréal, pour la conception des outils nécessaires à la préparation de la veille.

Nous vous souhaitons une bonne lecture !

L'équipe du CRI-VIFF
