RESOLVE is a tri-provincial prairie research network that seeks solutions to violence and abuse. RESOLVE's research mandate primarily focuses on violence involving women and girls; however, we conduct research on all forms of family violence in the broader context of communities and schools.

Another of RESOLVE's central mandates is sharing and disseminating research results. We host an annual research day to showcase research and evaluation projects that address violence and suggest better ways to prevent and intervene to assist victims and create meaningful societal change. We are inviting academics and community organizations to share their research initiatives and results.

RESOLVE Manitoba is now accepting proposals for the upcoming National Research Day to be held Thursday & Friday, November 06 & 07, 2008 at the University of Manitoba

Research topics may include (but are not limited to):

- violence against girls or women
- family violence
- youth violence
- elder abuse
- violence and diversity
- violence prevention
- the criminal justice response to domestic violence
- victim or offender treatment
- legislative approaches to family violence
- evaluations of programs that address or prevent violence

This year RESOLVE is partnering with National Alliance of Family Violence Research Centres we anticipate broad national attendance and presentations we are also collaborating with the "Canadian Observatory on the Justice System Response" and anticipate a number of our international partners to attend and present.
